ISSUE, BACKGROUND, ANALYSIS, & RECOMMENDATION

ISSUE:

The matter is before the Commission for review and action regarding the subject peace officer's certification status. The Commission shall return any determination requiring action to be taken against an individual's certification to the division, which shall initiate proceedings for a formal hearing before an administrative law judge in accordance with the Administrative Procedure Act (Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code), which shall be subject to judicial review as set forth in that Act.

BACKGROUND:

Respondent began his employment with the LAPD on July 6, 1998, as a full-time Peace Officer. On October 07, 2012, Respondent was promoted to the rank of Detective and on June 15, 2014, was promoted to the rank of “Supervisor”. On June 5, 2022, Respondent was demoted back to the rank of Detective.

This position is a peace officer position defined under California Penal Code §830.1(a) and is required to be certified pursuant to California Penal Code §13510.1(a).

The case before the Board alleges the Respondent, while on-duty, accessed the internet using computers owned by the Los Angeles Police Department (LAPD) to research threaded barrels for firearms, and firearm silencers and noise suppressors commonly sold as “fuel filters” by Chinese companies. On or about March 17, 2021, Respondent, while off-duty used a computer to purchase a purported automotive fuel filter from a company in China, listing his home address as

the mailing address. During the Administrative Investigation into the alleged serious misconduct of “Acts That Violate the Law” (attempting to purchase an illegal firearm silencer, a Felony), the Respondent was found to be dishonest when he stated he did not try to purchase a firearm silencer. These actions constituted Acts that Violate the Law as defined in Commission Regulation 1205(a)(6) and Dishonesty as defined in Commission Regulation 1205(a)(1).

ANALYSIS:

The Division found that the clear and convincing evidence substantiated that Respondent’s actions constitute serious misconduct, specifically, Dishonesty as defined in Commission Regulation 1205(a)(1), and Acts that Violate the Law as described in Commission Regulation Regulation 1205(a)(6), in that Respondent researched threaded barrels for firearms, firearm silencers and noise suppressors commonly sold as “fuel filters” by Chinese companies. On or about March 17, 2021, Respondent, while off-duty used a computer to purchase a purported automotive fuel filter from a company in China, listing his home address as the mailing address. On March 9, 2023, Respondent was held to answer at a preliminary hearing for the felony charge of Attempted Possession of a Silencer. On September 29, 2023, as the result of a plea bargain, Respondent was allowed to plead “No Contest” to the misdemeanor charge of Penal Code sections 664 and 30605(a); Attempt to Possess an Assault Weapon. The Felony charge was only dismissed as part of the plea agreement. During the internal investigation, Respondent was dishonest when he stated he was only purchasing a fuel filter for two vehicles he was rebuilding, neither of which would use a fuel filter like the item that was seized by U.S. Customs and Border Protection (CBP). He further perpetuated this dishonesty by claiming he had ordered other fuel filters for the vehicles, one of which never arrived, and provided a picture of the fuel filter that he had installed in one of the vehicles. The item CBP seized, which was addressed to Respondent at his home address. The item purchased may be advertised on the internet as a fuel filter (or solvent trap) to otherwise disguise its intended use; as manufactured it is functionally inoperable as a fuel filter (it had no filtering properties), and there are dozens of internet sites discussing and showing how to convert this item into a firearm silencer.

RECOMMENDATION:

The Commission shall review recommendations made by the

Peace Officer Standards Accountability Advisory Board (POSAAB) regarding, what action if any, should be taken, suspension or revocation, on the certification of the subject peace officer. The Commission's decision to adopt a recommendation by POSAAB to seek revocation shall require a two-thirds vote of Commissioners present and shall be based on whether the record, in its entirety, supports POSAAB's conclusion that serious misconduct has been established by clear and convincing evidence. In any case in which the Commission reaches a different determination than POSAAB's recommendation, it shall set forth its analysis and reasons for reaching a different determination in writing.
